MARCH 8: INTERNATIONAL WOMEN'S DAY

[HTTPS://WWW.INTERNATIONALWOMENSDAY.COM/](https://www.internationalwomensday.com/)

In 1908, 15,000 women marched in New York City demanding voting rights, better pay and shorter hours. A year after that, the first National Woman's Day was established in the US in 1909. It was decided in 1911 that International Women's Day would be held annually on March 8. A couple of the goals of women's day are to celebrate women's achievements and raise awareness about women's equality.

While progress has been made, there is still much work to do. According to the U.S. Census Bureau, in 2018, women earned 81.6¢ to every dollar earned by men. This issue affects everyone because the pay gap affects the livelihood of anyone who has a mother, wife, daughter, niece, and friend who is a woman.

LET'S CELEBRATE AND UPLIFT WOMEN ON INTERNATIONAL WOMEN'S DAY AND EVERYDAY.
